INDEPENDENT AUDITORS' REPORT

To the Board of Commissioners
Lafayette Parish Waterworks District South
Lafayette, Louisiana

We have audited the accompanying financial statements of the business-type activities of Lafayette Parish Waterworks District South, A Component Unit of the Consolidated Government of Lafayette, Louisiana, as of and for the year ended August 31, 2014, and the related notes to the financial statements, which collectively comprise the Lafayette Parish Waterworks District South's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of Lafayette Parish Waterworks District South, as of August 31, 2014, and the respective changes in financial position and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4-8 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Lafayette Parish Waterworks District South's basic financial statements. The Board of Commissioners and Schedule of Operating Expenses are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Board of Commissioners and Schedule of Operating Expenses are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Board of Commissioners and Schedule of Operating Expenses are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Board of Commissioners and Schedule of Operating Expenses have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2014

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Reporting Entity - The Lafayette Parish Waterworks District South (the District) is a component unit of the Consolidated Government of Lafayette, Louisiana (the Consolidated Government). The District constitutes a legal entity separate and apart from the Consolidated Government. The Consolidated Council of Lafayette appoints the governing body of the District. The financial information contained in these statements is only that of the Lafayette Parish Waterworks District South and includes all funds over which the District exercises oversight responsibility. This responsibility includes financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations, and accountability for fiscal matters.

The Lafayette Parish Waterworks District South was issued a charter by the State of Louisiana and a franchise from the Parish of Lafayette on October 10, 1974. The District's purpose is to provide a water system for the southern district in Lafayette Parish.

The accounts of the District are in conformity with accounting principles generally accepted in the United States of America (GAAP) as applicable to governments. Such accounting and reporting policies also conform to the guidelines set forth in the Louisiana Governmental Audit Guide.

Basis of Presentation - The Lafayette Parish Waterworks District South, reported in these statements as a proprietary fund, prepares its financial statements in accordance with accounting principles generally accepted in the U.S. (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). FASB ASC Section 2100 – Defining the Financial Reporting Entity (GASB Statement No. 14) established criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. The District is considered to be a component unit of the Consolidated Government of Lafayette, Louisiana. The accompanying statements present only transactions of the District and have been prepared in conformity with GASB Statement No. 34, “Basic Financial Statements and Management’s Discussion and Analysis-for State and Local Governments”, issued in June 1999.

Basis of Accounting - The District maintains its books and records on the full accrual basis of accounting and on the flow of economic resources measurement focus. The District applies all applicable pronouncements in accounting and reporting for its proprietary operations.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues are charges to customers for sales and services. Operating expenses include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Budgetary Accounting - Formal budgetary integration is not employed as a management control device for the Lafayette Parish Waterworks District South.

Property and Equipment - Property and equipment are recorded at cost and include direct costs and the costs of funds borrowed by the District and used for construction purposes. Capitalized interest incurred during the year ended August 31, 2014 was \$6,184.

A COMPONENT UNIT OF THE CONSOLIDATED GOVERNMENT OF LAFAYETTE, LOUISIANA

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2014

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Depreciation of property and equipment is computed using the straight-line method over the expected service lives of the assets as follows:

	<u>Years</u>
Water Distribution System	40
Water Treatment Plant	5-40
Water Lines, Wells and Meters	5-40
Office Equipment	3-7
Other Equipment	5-10
Vehicles	7

Labor Related Expenses - The District reimburses the Consolidated Government for group health insurance premiums that the Consolidated Government pays on the District's behalf.

Prepaid Items – Payments made to vendors for services that will benefit periods beyond year-end are recorded as prepaid items.

Bad Debts – Through the establishment of an allowance account, uncollectible amounts due from customer's utility receivables are recognized as bad debts at the time information becomes available, which would indicate the uncollectibility of the particular receivable. The allowance for doubtful accounts at August 31, 2014 was \$660.

Investments – Under state law, the District may deposit funds with a fiscal agent organized under the laws of the State of Louisiana, the laws of any other state in the union, or the laws of the United States. The District may invest in United States bonds, treasury notes and bills, government backed agency securities, or certificates and time deposits of state banks organized under Louisiana Law and national banks having principal offices in Louisiana. In addition, local governments in Louisiana are authorized to invest in the Louisiana Asset Management Pool (LAMP), a nonprofit corporation formed by the State Treasurer and organized under the laws of the State of Louisiana, which operates a local government investment pool. As of August 31, 2014 the District held no investments.

Unamortized Debt Expense – Debt expense incurred at bond issuance is expensed in the current year.

Unamortized Loss on Reacquired Debt – Losses incurred upon refunding of debt are treated as deferred outflows and amortized over the life of the new bonds issued.

Water Revenue Bonds – Bonds outstanding are stated at face value less unamortized discount and unamortized loss on reacquired debt. The discount is amortized over the life of the bonds using the sum of the bonds outstanding method.

Inventories – Inventories are valued at cost.

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2014

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Net Position – In the financial statements, equity is classified as net position and displayed in three components:

Net investment in capital assets - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to acquisition, construction, or improvement of those assets.

Restricted net position - consists of constraints placed on net position use through external constraints imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position – All other net positions that do not meet the definition of “restricted” or “invested in capital assets, net of related debt.”

Statement of Cash Flows - For purpose of the Statement of Cash Flows, the District considers all highly liquid investments (including restricted assets) with an original maturity of three months or less when purchased to be cash equivalents. Cash and interest-bearing deposits are stated at cost, which approximates market.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Compensated Absences – All full-time employees of the District earn annual leave in amounts from 0 to 20 days per year based on years of service. Annual leave shall be used or surrendered in the period in which it is earned. Upon termination, employees are paid for all accumulated annual leave.

Excused absences are earned by full-time employees of the District in the amounts of 0 to 5 days per year based on years of service. Excused absences include illness, funeral leave, court appearances or other preapproved appointments. Excused time is surrendered if not used during the year. Upon separation unused excused time will not be paid to the employee.

Post-Employment Benefits – As a component unit of the Consolidated Government of Lafayette, Louisiana, the District was required to implement GASB Statement No. 45 – Financial Reporting for Postemployment Benefit Plans Other Than Pensions for the year beginning September 1, 2007. The District does not offer any of these types of benefits to employees and therefore has no liability in relation to the implementation of the statement.

B. CASH AND INTEREST-BEARING DEPOSITS

Under state law, the District may deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the Union, or the laws of the United States. The District may invest in certificates and time deposits of state banks organized under Louisiana law and national banks having principal offices in Louisiana. At August 31, 2014, the District has cash and interest-bearing deposits (book balances) totaling \$2,293,812.

Custodial Credit Risk Relating to Deposits

Custodial credit risk is the risk that, in the event of bank failure, the District's deposits might not be recovered. The District does not have a policy for custodial credit risk, however, under state law, these deposits, (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent bank.

The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent bank. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties. As of August 31, 2014, \$-0-, of the District's bank balances of \$2,311,886 was exposed to custodial credit risk as follows:

Bank Balances	<u>\$ 2,311,886</u>
Federal Deposit Insurance	\$ 250,000
Pledged Securities (Category 3)	<u>2,986,430</u>
Total	<u>\$ 3,236,430</u>

Pledged securities in Category 3 include uninsured or unregistered investments for which the securities are held by the bank, or by its trust department or agent, but not in the District's name. Even though the pledged securities are considered uncollateralized (Category 3) Louisiana Revenue Statute 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the District that the fiscal agent has failed to pay deposited funds upon demand.

C. RESTRICTED ASSETS

Water Revenue Bond and Interest Sinking Fund - Each month there shall be set aside into this fund an amount constituting 1/12 of the next maturing installment of principal and interest on the outstanding bonds. Such transfers shall be fully sufficient to assure the prompt payment of principal and interest installments as they become due, and may be used only for such payments.

Water Revenue Reserve Fund - There shall also be set aside and maintained in this fund, an amount equal to the Reserve Fund Requirement of \$200,276. The money in the Reserve Fund consists exclusively of revenues of the System and investment earning. Such amount may be used only for the purpose of paying the principal of and interest on bonds payable from the Water Revenue Bond and Interest Sinking Fund as to which there would otherwise be default.

F. RELATED PARTY TRANSACTIONS

The District purchases water from the Consolidated Government for resale to customers in the ordinary course of business. The District purchased \$562,398 of water from the Consolidated Government during 2014. At August 31, 2014, the District owed the Consolidated Government \$47,271.

G. RISK MANAGEMENT

The District is exposed to risks of loss in the areas of directors, officers and employee liability, general liability, property hazard and workers' compensation. All of these risks are handled by purchasing commercial insurance coverage. There have been no significant reductions in insurance coverage during the year.

H. DEFERRED OUTFLOWS/INFLOWS OF RESOURCES

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and thus, will not be recognized as an outflow of resources (expense/expenditure) until then. The District has only one item that qualifies for reporting in this category. It is the deferred charge on loss of refunding reported in the statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The District did not have any items that qualified as deferred inflows at August 31, 2014.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Commissioners
Lafayette Parish Waterworks District South
Lafayette, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities, of Lafayette Parish Waterworks District South, A Component Unit of the Consolidated Government of Lafayette, Louisiana, as of and for the year ended August 31, 2014, and the related notes to the financial statements, which collectively comprise Lafayette Parish Waterworks District South's basic financial statements and have issued our report thereon dated January 26, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Lafayette Parish Waterworks District South's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Lafayette Parish Waterworks District South's internal control. Accordingly, we do not express an opinion on the effectiveness of Lafayette Parish Waterworks District South's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and questioned costs, we identified a certain deficiency in internal control that we consider to be a material weakness.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiency described in the accompanying schedule of findings and questioned costs to be a material weakness, 2014-2.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency described in the accompany schedule of findings and questioned costs to be a significant deficiency, 2014-1.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Lafayette Parish Waterworks District South's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Lafayette Parish Waterworks District South's Response to Findings

Lafayette Parish Waterworks District South's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. Lafayette Parish Waterworks District South's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Section II – Financial Statement Findings

2014-1 Inadequate Controls over Financial Statement Preparation

Finding:

The District does not have a staff person who has the qualifications and training to apply generally accepted accounting principles (GAAP) in recording the entity’s financial transactions or preparing its financial statements, including related notes.

Recommendation:

The District should evaluate the cost vs. benefit of establishing internal controls over the preparation of financial statements in accordance with GAAP, to determine if it is in the best interest of the government to outsource this task and then carefully review the draft financial statements and related footnotes prior to approving them and accepting responsibility for their contents and presentation.

2014-2 Material Audit Adjustments

Finding:

During the course of the current year audit, the auditor was required to make a significant number of adjusting journal entries which had a material effect on the financial statements.

Recommendation:

The District should implement procedures to limit the number of reclassification entries necessary for financial statement preparation, recognize donated infrastructure, inventory, and effectively match materials and labor for water meters, lines, construction in progress and other capital expenditures.

Section III – Federal Award Findings and Questioned Costs

This section is not applicable for the fiscal year ending August 31, 2014.

**MANAGEMENT'S CORRECTIVE ACTION PLAN
FOR THE YEAR ENDED AUGUST 31, 2014**

The Lafayette Parish Waterworks District South respectfully submits the following corrective action plan for the year ended August 31, 2014.

The finding from the August 31, 2014 Schedule of Findings and Questioned Costs is discussed below. The finding is numbered consistently with the numbers assigned in the schedule.

Finding No. 2014-1

Recommendation: The District should evaluate the cost vs. benefit of establishing internal controls over the preparation of financial statements in accordance with GAAP to determine if it is in the best interest of the government to outsource this task and then carefully review the draft financial statements and related footnotes prior to approving them and accepting responsibility for their contents and presentation.

Action Taken: The District has evaluated the cost vs. benefit and has determined that outsourcing the preparation of the financial statements to the independent auditors is in the best interest of the District at this time and will carefully review and approve the draft financial and related footnotes prior to issuance.

Finding No. 2014-2

Recommendation: The District should implement procedures to limit the number of adjusting entries necessary for financial statement preparation, recognize donated infrastructure, inventory, and effectively match materials and labor for water meters, lines, construction in progress and other capital expenditures.

Action Taken: The District will implement this recommendation in the current fiscal year.

If the Louisiana Legislative Auditor has questions regarding this plan, please call John Hebert, President, Lafayette Parish Waterworks District South Board of Commissioners at (337) 989-9600.

Sincerely yours,

John Hebert
President
